SPECIAL COVERAGE LIMITATIONS

Installation: The water tank must be installed by an Advantage certified technician, either remotely or at our Plant City FL. facility.

Product Interface with Chassis: Kits are designed to fit the specific, intended chassis in its standard configuration. It is to be expected that some assembly and cutting/welding will be performed to complete the installation of the kit to the chassis including but not limited to location and welding of mounting points, shimming of body pads, clearing unexpected interference, and location of hydraulic system or other appliance mounting points.

Hydraulic System: Kits are designed to work with specific model chassis. Not all hydraulic lines may be cut to length and finished – these are to be custom fixed during field installation. Labor and material to perform this is not covered under warranty. Every effort is made to provide the fittings required for installation of the hydraulic system to the chassis. Some changes may be made by the chassis manufacturer without our knowledge requiring changes in fittings, hoses, and method of installation. Advantage limits its warranty responsibility to provide advice and parts required to complete the installation of hydraulic system.

Additional: In accordance with drawings and specifications, this warranty applies to Advantage manufactured components purchase, installed, and used for the purpose which such equipment was originally designed. The Advantage warranty only covers defects arising under normal use and does not include malfunctions or failures resulting from misuse, abuse, neglect, alteration, and problems with electrical power, usage not in accordance with product instructions, or improper installation or repairs.
